Wenatchee Education Association Endorses Wenatchee School District Bond

The Wenatchee Education Association, (WenEA), representing over 400 dedicated educators and school professionals across the district, proudly announces its endorsement of the Wenatchee School Bond on the upcoming 2026 ballot.

Our educators see firsthand what our students need to succeed every single day. Voting **YES** is a direct investment in the health, safety, and academic future of our children and community as a whole. This bond addresses critical funding needs without impacting operational classroom budgets, ensuring our students have access to the modern, safe, equitable learning environments they deserve while breathing clean, healthy air.

Passing this bond is not just about improving buildings; it is about showing our students that we as a community believe in their potential. It is about investing in those who will be in charge of the health and safety of our community when we are unable to do the job ourselves. WenEA hopes that every resident will join us in voting **YES**. WenEA members will continue volunteering, sign waving, door-knocking, and phone-banking between now and November 3rd to ensure voters understand how vital this bond is for our community.

The Wenatchee Education Association stands in support of the Wenatchee School District Bond.

Eva Fortier

President, Wenatchee Education Association
